

Marin Resource Recovery Center

CONSERVATION - OUR EARTH, OUR MISSION, OUR JOB

23 April 2018

RE: MARIN RESOURCE RECOVERY CENTER
RECYCLING CERTIFICATION

To Whom It May Concern:

The Marin Resource Recovery Center (MRRC), in San Rafael, California, is a Material Recovery Facility that accepts mixed construction and demolition loads, as well as many other types of materials. All incoming loads are sorted and processed to remove recyclable materials.

MRRC provides quarterly reports to the Marin County Hazardous and Solid Waste Joint Powers Authority that are used by that agency for state reporting requirements. Attached is the most recent submission for the 1st quarter of 2018. A total of 60,361 tons were received by the facility during the quarter. 33,910 tons were removed from the waste stream and recycled, and 26,451 tons were landfilled. This equates to a recycling rate of 56.2%.

Due to an equipment malfunction in early November 2017, we have included fines in our MSW calculation in Q1. This puts pressure on the recycling rate %. We have addressed the issue and the new equipment should be delivered and installed by August 2018. Therefore, you will also see downward pressure on the recycling rate during most of 2018. We project our 2019 recycling rate to increase to its historical levels.

Sincerely,

A handwritten signature in cursive script that reads "Charlie Wicke".
